

**GEOLOGICAL SOCIETY OF AUSTRALIA INC.
QUEENSLAND DIVISION**

PUBLICATION CATALOGUE

March 2016

Prices are inclusive of GST

Order Form Attached

ROCKS AND LANDSCAPES BOOKLETS

The booklets explain in a precise, easy to understand way how geological processes acting over hundreds of millions of years have formed the rocks and scenery we see today in various districts. A must for all science and geography teachers, geotechnical engineers, quarry personnel and natural resource managers, as well as all those interested in natural history. Major sections describe routes or walks along which typical rocks can be seen. The district booklets also explain the controls geology exerts on the occurrence of useful minerals, and on human land use.

Those published by the Society are below

NATIONAL PARKS OF NORTH QUEENSLAND (2009, full colour, 178pp)	\$20.00 + \$5.50 post & pack
NATIONAL PARKS OF CENTRAL QUEENSLAND (2006, full colour, 170pp)	\$20.00 + \$5.50 post & pack
NATIONAL PARKS OF SOUTHERN QUEENSLAND (2004, full colour, 162pp)	\$20.00 + \$5.50 post & pack
WET TROPICS, ROCKS LANDSCAPES & RESOURCES (2008, full colour, incl Resources)	\$11.00 + \$3.50 post & pack
SUNSHINE COAST (updated 2 nd Ed) (2007, full colour, incl Gympie)	\$11.00 + \$3.50 post & pack
GOLD COAST HINTERLAND (3 rd Ed) (2010, full colour)	\$11.00 + \$3.50 post & pack
BRISBANE AND IPSWICH (2 nd Edition) (2012, full colour)	\$11.00 + \$3.50 post & pack

*Please contact us for postage rates for multiple books. Contact details are at the bottom of the last page.

Those below are published by the Queensland Department of Natural Resources and Mines. Remaining available ones are also being sold by the Society as a service to members and others

CHILLAGOE DISTRICT	Out of print
CAIRNS DISTRICT	Out of print CD only
TOWNSVILLE DISTRICT	\$11.00 + \$3.50 post & pack
CARNARVON GORGE	\$11.00 + \$3.50 post & pack

HISTORICAL MINING BOOKLETS

The GSA is now selling on consignment two small booklets on mining history compiled by one of our members, Ken Grubb. These are:

Silver Hill -the University of Queensland Silver
Mine Precinct(at Indooroopilly) \$10.00 + \$3.50 post and pack

Coal Castle and Choirs (coal mining history of
Blackstone, Ipswich). \$5.00 + \$3.50 post and pack

ROCKS AND LANDSCAPE NOTES

These are folded A3 leaflets describing the geological origins of some of the more scenic areas of the State which are popular with the public and tourists. They originally supplemented the Rocks and Landscape booklets, but some are superseded by the booklets on the National Parks.

Produced so far are:

DISTRICT NOTES

- Boonah District
- Stanthorpe & the Granite Belt

HIGHWAY NOTES

- Bruce Highway - Rockhampton to Mackay
- Capricorn Highway - Rockhampton to Barcaldine

SPECIFIC FEATURES OF INTEREST

SOUTH-EAST QUEENSLAND

- Bunya Mountains
- Main Range
- Mount Barney
- Mount Walsh area
- O'Reillys-Green Mountains
- Sundown area

CENTRAL QUEENSLAND

- Cape Palmerston
- Kroombit Tourist Park - Biloela
- Marble Waterhole area
- Mount Archer & Berserker Range

NORTH QUEENSLAND

- Cobbold Creek Gorge

These Notes are available in PDF format on the Society's web page at <http://qld.gsa.org.au/rockland.htm>, or as hard copy free of charge on the supply of a stamped self-addressed envelope to the Society's address as given in the order form below.

ROCKS AND LANDSCAPE NOTES

Brief Backgrounds

Smaller, A4 leaflets providing brief snippets of geological information on various scenic areas and topics of geological interest. Most of these leaflets have been superseded by descriptions in our books on the National Parks of Southern, Central and North Queensland.

Available as for the longer Notes as described above.

Current leaflets are:

Black Mountain, Cooktown

Camooweal Caves

Coalstoun Lakes, Burnett District

Cooloola National Park

Diamond Cliffs, Homevale near Mackay

Double Head, Yeppoon

Fountain Range, Cloncurry

Girraween National Park

Keppel Bay, Yeppoon

Landslide Risk in Queensland

Minerva Hills, Springsure

Mount Walsh, Biggenden

Peak Range, Central QLD

Porcupine Gorge, Hughenden

TEACHING SLIDES AND NOTES ON THE GEOLOGICAL HISTORY OF BRISBANE

Teaching Slides and Notes on the Geological History of Brisbane was prepared as a teaching aid to show the major geological episodes which make up the geological history of the Brisbane region. **Out of stock and now discontinued.** Information available in Brisbane and Ipswich book above.

QUEENSLAND FIELD GEOLOGY GUIDE

NC Stevens 1984

This is now out of print and will not be reprinted in its present form, as descriptions of field localities are now out of date. A free pdf of this guide can be downloaded from <http://www.qld.gsa.org.au/rocks.htm>

DISTRICT FIELD GUIDES

These result from the Society's various Field Conferences between 1964 and 2015. They provide updated interpretations of the geology and mineral resources of various districts at a more technical level than the Rocks and Landscapes Series.

Many are now out of print but can be downloaded as free pdfs from <http://www.qld.gsa.org.au/GSA%20Guidebooks.htm>

Those still available as printed copies are:

1995-CLERMONT - ANAKIE REGION CENTRAL QUEENSLAND

\$11.00 + \$5.50 post	Pre-Devonian geology of Anakie Inlier; Structure of Anakie Metamorphic Group and Fork Lagoon Beds; Plutonic rocks in southern Anakie Inlier; Dev.-Carb. Stratigraphy of the southern Anakie Inlier and adj. Drummond Basin; Silver Hills Volcanics; Cainozoic of Anakie-Rubyvale; Mineral deposits in southern Anakie Inlier; Black Ridge gold deposit; Miclere goldfield; Blair Athol Basin; Subera mine alluvial sapphire deposit; Exploration for copper at Peak Downs mine.
--------------------------------	--

1994-CAPRICORN REGION, CENTRAL COASTAL QUEENSLAND

\$11.00 + \$5.50 post	Tectonics on New England Fold Belt in Rockhampton-Gladstone region; Grantleigh Trough; Cycles of volcanism in southern Connors Arch; Calliope volcanic assemblage, Mt Morgan - Dee Range; Mount Morgan mine - three dimensional relationships; Mount Chalmers massive sulphide deposit and implications for formation; Devlin Creek copper-zinc deposits; Kunwarara magnesite deposit; Brolga Ni-Co laterite deposit; Mount Hedlow Trachyte; Seismicity of central Queensland; Metallogeny of northern New England Fold Belt.
--------------------------------	---

1992-NEW ENGLAND DISTRICT

\$11.00 + \$5.50 post	Recent advances in geological development; mineralisation in Stanthorpe - Texas Area; the Warroo Mine; Granite dimension stone; Limestone resources of the Texas area; Bolivia quartz (silica) mine; Wandsworth Volcanic Group; Tectonics and landforms; Geology of sapphire deposits of the central volcanic province (major paper); Copeton/Bingara diamond field; Timbarra gold project.
--------------------------------	---

1978-TOWNSVILLE HINTERLAND (3rdAGC)

\$2.20 + \$5.50 post	Geology Georgetown region; Townsville paralic and shelf deposits; northern Tasman Orogenic Zone; Fanning River-Dotswood-Charters Towers; Middle Cambrian Eastern Georgina Basin; Mt Stuart-Ross River Dam.
-------------------------------	--

SYMPOSIUM VOLUMES

MESOZOIC GEOLOGY OF THE EASTERN AUSTRALIAN PLATE **1996 CONFERENCE - EXTENDED ABSTRACTS**

A wide ranging extensive collection of papers (575 pages) packed with information and interpretation of the Mesozoic geology of eastern Australia - the 'bible' on such areas for the immediate future.

Reduced to \$22.00 + post (\$10.00. Brisbane; enquire for country and interstate rates)

PERMIAN GEOLOGY OF QUEENSLAND 1983

This publication covers topics of Energy Resources, Economics & Engineering, Palaeontology, Sedimentology, Geophysics, Metalliferous Deposits, and Tectonics.

Free on payment of postage of \$10.00 Brisbane; enquire for country and interstate rates.

AUSTRALIA-WIDE PUBLICATIONS

The Federal office of the Society also publishes a catalogue of the Society's publications from across Australia. This can be seen on www.gsa.org.au
